

FEMA National Incident Management System (NIMS) and Incident Command System (ICS) Training

[FEMA Independent Study Course Instructions \(PDF\)](#)

The FEMA *National Incident Management System (NIMS) and Incident Command System (ICS) training* for key personnel will be implemented at Lee College as a best practice to manage incidents and coordinate with first responders.

Per guidance from the U.S. Departments of Homeland Security and Education, higher education institutions should use their discretion to identify "key personnel" involved in emergency management and incident response. Lee College's key personnel have been identified based on their position and role in emergency management and incident response. See the *NIMS/ICS Key Personnel Training Matrix* below for key personnel positions and role examples.

Key Personnel with a General Role who support incident response must complete the following training courses:

- IS-100.c Introduction to the Incident Command System, ICS 100 (2 hours)
- IS-700.b An Introduction to the National Incident Management System (3.5 hours)

Key Personnel with a Critical Role with leadership responsibilities and Incident Management Team members must complete the following training courses:

- IS-100.c Introduction to the Incident Command System, ICS 100 (2 hours)
- IS-200.c Basic Incident Command System for Initial Response, ICS-200 (4 hours)
- IS-700.b An Introduction to the National Incident Management System (3.5 hours)
- IS-800.d National Response Framework, An Introduction (3 hours)
