About CLEP

The Lee College Testing Center is a certified testing center for the College-Level Examination Program (CLEP). CLEP offers 34 standardized tests that measure a person's knowledge of the material covered in introductory-level college courses. Each institution is different, and some only award credit for specific subjects. If you are unsure, it is highly recommended that you confirm your institution's CLEP testing policy before taking a CLEP exam.

Lee College CLEP Testing Policy

Lee College awards credit for 12 offered exams (see table below) from the College-Level Examination Program. Students who score the established minimum score can receive college credit for the specific test area. For more information and guidance, feel free to arrange an appointment to see your Lee College advisor.
